Editorial *(29 June–2 July 1999)*

Proceedings of the Nutrition Society: 2000 and beyond.
K. M. Younger 1–2

Plenary Lecture *(29 June–2 July 1999)*

Chair: R. Whitehead, *MRC Human Nutrition Research, Cambridge*

Essential fatty acids in early life: structural and functional role.
R. Uauy, P. Mena & C. Rojas 3–15

Feeding, nurture and childhood development *(Symposium Proceedings: 29 June–2 July 1999)*

Chair: L. Weaver, *Royal Hospital for Sick Children, Glasgow*

Long-term adequacy of exclusive breast-feeding: how scientific research has led to revised opinions.
R. G. Whitehead & A. A. Paul 17–23

The role of care in nutrition programmes: current research and a research agenda.
P. L. Engle, M. Bentley & G. Pelto 25–35

Failure to thrive in a population context: two contrasting studies of feeding and nutritional status.
C. Wright, J. Loughridge & G. Moore 37–45

Nutritional deficiencies and later behavioural development.
S. M. Grantham-McGregor, S. P. Walker & S. Chang 47–54

Plenary Lecture *(29 June–2 July 1999)*

Chair: H. Powers, *University of Sheffield, Sheffield*

Factors affecting newborn bone mineral content: *in utero* effects on newborn bone mineralization.
R. Namgung & R. C. Tsang 55–63

The role of micronutrients as modulators of development
(Symposium Proceedings: 29 June–2 July 1999)

Chair: D. I. Thurnham, *University of Ulster, Coleraine*

The role of retinoic acid in embryonic and post-embryonic development.
M. Maden 65–73

The role of iodine in brain development.
F. Delange 75–79

Are milk polyamines preventive agents against food allergy?
G. Dandrifosse, O. Peulen, N. El Khefif, P. Deloyer, A. C. Dandrifosse & Ch. Grandfils 81–86

Plenary Lecture *(29 June–2 July 1999)*

Chair: R. J. Dewhurst, *Institute of Grasslands and Environmental Research, Aberystwyth*

Protein nutrition of the neonate.
P. J. Reeds, D. G. Burrin, T. A. Davis, M. L. Fiorotto, B. Stoll & J. B. van Goudoever 87–97

Regulation of maternal reserves and effects on lactation and the nutrition of young animals *(Symposium Proceedings: 29 June–2 July 1999)*

Chair: R. J. Wallace, *Rowett Research Institute, Aberdeen*

Use of maternal reserves as a lactation strategy in large mammals.
O. T. Oftedal 99–106

Nutrient partitioning during pregnancy: adverse gestational outcome in overnourished adolescent dams.
J. M. Wallace 107-117

Protein nutrition in late pregnancy, maternal protein reserves and lactation performance in dairy cows.
A. W. Bell, W. S. Burhans & T. R. Overton 119–126

Adipose tissue metabolism and its role in adaptations to undernutrition in ruminants.
Y. Chilliard, A. Ferlay, Y. Faulconnier, M. Bonnet, J. Rouel & F. Bocquier 127–134

Clinical nutrition in childhood *(Symposium Proceedings: 29 June–2 July 1999)*

Chair: M. E. J. Lean, *Glasgow Royal Infirmary*

Malnutrition, morbidity and mortality in children and their mothers.
A. Tomkins 135–146

The impact of infection and nutrition on gut function and growth in childhood.
P. G. Lunn 147–154

Nutrition in paediatric human immunodeficiency virus infection.
T. L. Miller 155–162

Plenary Lecture (29 June–2 July 1999)

Chair: L. Weaver, *Yorkhill Hospitals, Glasgow*

Early nutrition and the development of immune function in the neonate.
D. Kelly & A. G. P. Coutts 177–185

Postgraduate Symposium *(Symposium Proceedings: 29 June–2 July 1999)*

Chair: J. D. Oldham, *Scottish Agricultural College, Edinburgh*

Assessment of individual fatty acid intake.
M. M. Cantwell 187–191

Interactions between physical activity and diet in the regulation of body weight.
M. S. Moore 193–198

Energy expenditure in disease: time to revisit?
E. R. Gibney 199–207

New perspectives on the use of tropical plants to improve ruminant nutrition.
B. Teferedegne 209–214

Kill and cure: dietary augmentation of immune defences against colon cancer.
F. Armstrong & J. C. Mathers 215–220

Nutritional aspects and possible pathological mechanisms of hyperhomocysteinaemia: an independent risk factor for vascular disease.
M. C. McKinley 221–237

Plenary Lecture (29 June–2 July 1999)

Chair: R. J. Stubbs, *Rowett Research Institute, Aberdeen*

Sensory control of energy density at different life stages.
A. Drewnowski 239–244

Long-term consequences of growth perturbation in children and adolescents
(Symposium Proceedings: 29 June–2 July 1999)

Chairs: P. Shetty, *London School of Hygiene and Tropical Medicine;* **P. Emery,** *King's College London*

Long-term physiological and economic consequences of growth retardation in children and adolescents.
N. G. Norgan 245–256

Interactions of perturbations in intrauterine growth and growth during childhood on the risk of adult-onset disease.
C. Yajnik 257–265

Nutritional and other influences in childhood as predictors of adult obesity.
C. Power & T. Parsons 267–272

Growing up with good nutrition: a focus on the first two decades
(Symposium Proceedings: 1–3 September 1999)

Chairs: N. P. Kennedy, *St James's Hospital, Dublin;* **G. Goldberg,** *MRC, Dunn Clinical Nutrition Unit, Cambridge;* **J. Morgan,** *University of Surrey, Guildford;* **M. Moloney,** *Dublin Institute of Technology;* **J. J. Strain,** *University of Ulster, Coleraine*

Food allergy and nutrition in early life: implications for later health.
R. K. Chandra 273–277

Measurement of dietary intake in children.
M. B. E. Livingstone & P. J. Robson 279–293

Changing eating and physical activity patterns of US children.
R. K. Johnson 295–301

The growing years and prevention of osteoporosis in later life.
C. M. Weaver 303–306

Childhood nutrition and poverty.
M. Nelson 307–315

Secular trends in growth.
T. J. Cole 317–324

The acquisition of obesity: insights from cellular and genetic research.
M. Wabitsch 325–330

Obesity *(Symposium Proceedings: 8–11 September 1999)*

Chairs: P. Varela, *Ciudad Universitaria, Madrid, Spain*; **M. J. Gibney,** *Trinity College Dublin, Republic of Ireland*

Pathophysiology of obesity.
M. E. J. Lean 331–336

Body-weight regulation: causes of obesity.
J. A. Martinez 337–345

Slimming diets.
J. B. Monteiro & L. Costain 347–348

Body-weight balance and regulation *(Symposium Proceedings: 8–11 September 1999)*

Chairs: S. Zamora, *University of Murcia, Spain;* **K. Westerterp,** *Maastricht University, The Netherlands*

Role of dietary carbohydrate and frequent eating in body-weight control.
T. R. Kirk 349–358

Role of adipose tissue in body-weight regulation: mechanisms regulating leptin production and energy balance.
P. J. Havel 359–371

Signalling in body-weight homeostasis *(Symposium Proceedings: 8–11 September 1999)*

Chairs: N. Finer, *Luton and Dunstable NHS Trust, Luton, UK;* **A. Marti,** *University of Navarra, Pamplona*

Afferent signals regulating food intake.
G. A. Bray 373–384

The hypothalamus and the regulation of energy homeostasis: lifting the lid on a black box.
G. Williams, J. A. Harrold & D. J. Cutler 385–396

Signalling in body-weight homeostasis: neuroendocrine efferent signals.
J. Webber & I. A. Macdonald 397–404

Methodological approaches in body-weight regulation
(Symposium Proceedings: 8–11 September 1999)

Chairs: S. A. Jebb, *MRC Human Nutrition Research, Cambridge, UK;* **P. Trayhurn,** *University of Oslo, Norway*

Methodological approaches to assess body-weight regulation and aetiology of obesity.
A. Marti, C. De Miguel, S. A. Jebb, M. Lafontan, M. Laville, A. Palou, X. Remesar, P. Trayhurn & J. A. Martinez 405–411

Management of obesity *(Symposium Proceedings: 8–11 September 1999)*

Chairs: M. J. Gibney, *Trinity College Dublin;* **J. A. Martínez,** *University of Navarro, Pamplona*

Prevention and management of obesity: pharmacology.
N. Finer 413

Modification of cardiovascular risk: lifestyle *v.* drugs
(Proceedings Symposium: 5–6 October 1999)

Chair: C. Williams, *University of Reading, UK;* **J.-P. Després,** *Laval Hospital Research Center, Québec, Canada*

Cardiovascular disease risk: a round table approach. How do factors related to diet, obesity, activity and drugs contribute to a combined strategy for prevention?
M. Ashwell, A. Hardman & M. Oliver 415–416

Nutritional interventions: the evidence.
M. B. Katan 417–418

Obesity and weight control: the evidence.
J. C. Seidell 419–420

Physical exercise to reduce cardiovascular disease risk.
R. Paffenbarger 421–422

Lipid-lowering drug therapies: the evidence.
C. Packard 423–424

Other drug treatments: the evidence.
N. Poulter 425–426

Insulin resistance: influence of diet and exercise.
J.-P. Després 427

Modification of cardiovascular risk: tomorrow's opportunities
(Proceedings Symposium: 5–6 October 1999)

Chairs: B. Griffin, *University of Surrey, Guildford, UK;* **J. Betteridge,** *Middlesex Hospital, London*

Homocysteine and cardiovascular disease: dietary supplements for all.
J. Scott 429–430
Appetite regulation: new opportunities for weight control.
D. Morgan 431
Nuclear transcription factors: new opportunities for lipid lowering.
B. Staels 433
Cellular mechanisms in atherogenesis: new opportunities in cardiovascular disease risk reduction.
G. A. A. Ferns 435–436
Genetic determinants of dietary and drug responsiveness.
F. Karpe 437–438
The genetics of the metabolic overlap syndrome.
J. Scott, C. Shoulders, N. Navaratnam & T. Aitman 439

Sir David Cuthbertson Medal Lecture *(7–9 December 1999)*

Chair: C. R. Pennington, *Ninewells Teaching Hospital NHS Trust, Dundee*

Regulation of lipid metabolism in adipose tissue.
J. S. Samra 441–446

Nutrition in the severely injured patient *(Proceedings Symposium: 7–9 December 1999)*

Chairs: A. Pierro, *Institute of Child Health, London;* **R. F. Grimble,** *University of Southampton, UK*

Substrate metabolism in the metabolic response to injury.
J. A. Romijn 447–449
Micronutrients in the severely-injured patient.
A. Shenkin 451–456
Parenteral nutrition in the critically-ill patient: more harm than good?
D. K. Heyland 457–466

Nutritional support: the search for evidence
(Proceedings Symposium: 7–9 December 1999)

Chairs: B. Jones, *Russells Hall Hospital, Dudley, UK;* **K. Fearon,** *University of Edinburgh, UK*

Gathering evidence and assessing biases.
C. Martyn 467
Summary of a systematic review on oral nutritional supplement use in the community.
R. J. Stratton 469–476
Adult patients.
G. Carlson 477–479

Nutricia 1998 Clinical Care Research Award Oral Presentation *(7–9 December 1999)*

Chair: K Fearon, *University of Edinburgh, UK*

Home enteral nutrition: an audit of dietetic care in Tayside.
E. J. Baxby 481

Symposium on 'Getting nutritional support onto the intensive therapy unit'

Chair: B. McElroy, *Royal Shrewsbury Hospital NHS Trust, Shropshire, UK*

Nursing role in nutritional support on the intensive therapy unit.
A. P. Darbyshire 483–484

Nutritional aspects of renal disease *(Proceedings Symposium: 7–9 December 1999)*

Chair: C.-A. McAtear, *Victoria Infirmary, Glasgow, UK*

Nutritional support in renal failure.
G. H. Hartley 485–486

The nurse's role in feeding patients with renal disease.
E. P. Murray 487

Nutrition Society Medal Lecture *(29 June–2 July 1999)*

Chair: C. M. Williams, *University of Reading*

Phyto-oestrogens through the life cycle
A. Cassidy & M. Faughnan 489–496

Growing up with good nutrition: a focus on the first two decades
(Symposium Proceedings: 1–3 September 1999)

Chairs: N. P. Kennedy, *St James's Hospital, Dublin;* **G. Goldberg,** *MRC Dunn Clinical Nutrition Unit, Cambridge;* **J. Morgan,** *University of Surrey, Guildford;* **M. Moloney,** *Dublin Institute of Technology;* **J. J. Strain,** *University of Ulster, Coleraine*

Charting the physical activity patterns of contemporary children and adolescents.
K. R. Fox & C. Riddoch 497–504

Obesity *(Symposium Proceedings: 8–11 September 1999)*

Chairs: P. Varela, *Ciudad Universitaria, Madrid, Spain;* **M. J. Gibney,** *Trinity College, Dublin, Republic of Ireland*

Obesity: criteria and classification.
F. X. Pi-Sunyer 505–509

Body-weight balance and regulation *(Symposium Proceedings: 8–11 September 1999)*

Chairs: S. Zamora *University of Murcia, Spain;* **K. Westerterp,** *Maastricht University, The Netherlands*

Role of substrate utilization and thermogenesis on body-weight control with particular reference to alcohol.
Y. Schutz 511–517

The molecular and cellular roles of nutrients in the immune system
(Symposium Proceedings: 30 November–3 December 1999)

Chairs: L. S. Harbige, *University of Greenwich, London, UK;* **P. C. Calder,** *University of Southampton, Southampton, UK*

All-*trans*-retinoic acid and polyriboinosinoic : polyribocytidylic acid cooperate to elevate anti-tetanus immunoglobulin G and immunoglobulin responses in vitamin A-deficient Lewis rats and Balb/c mice.
K. L. DeCicco & A. C. Ross 519–529

Vitamin D: a natural inhibitor of multiple sclerosis.
C. E. Hayes 531–535

Cellular and molecular aspects of iron and immune function.
J. H. Brock & V. Mulero 537–540
Zinc and immune system.
L. Rink & P. Gabriel 541–552

Nutrition in the severely-injured patient *(Symposium Proceedings: 7–9 December 1999)*

Chairs: A. Pierro, *Institute of Child Health, London;* **R. F. Grimble,** *University of Southampton, UK*

The scientific basis of immunonutrition.
U. Suchner, K. S. Kuhn & P. Fürst 553–563

Nutrition and immunity *(Symposium Proceedings: 9 February 2000)*

Chairs: P. C. Calder, *University of Southampton;* **P. Yaqoob,** *University of Reading, Reading, UK*

Role of breast-feeding in managing malnutrition and infectious disease.
S. M. Filteau 565–572
Cow's milk and immune-mediated diabetes.
H. E. Wasmuth & H. Kolb 573–579
Micronutrients and host resistance to viral infection.
M. A. Beck & C. C. Matthews 581–585
Micronutrients and immune function in cattle.
J. W. Spears 587–594
Glutathione and immune function.
W. Dröge & R. Breitkreutz 595–600

Obesity: genes, drugs and dietary treatment *(Symposium Proceedings: 9 March 2000)*

Chair: M. J. Gibney, *Trinity College, Dublin*

Dietary treatments of obesity.
M. Moloney 601–608

The ethics of food production and consumption
(Symposium Proceedings: 28-30 March 2000)

The following papers were to have been presented at the Annual Meeting of the Scottish Section of the Nutrition Society

The role of food ethics in food policy.
T. B. Mepham 609–618
Ethical dilemmas in choosing a healthful diet: vote with your fork!
M. Nestle 619–629

Abstracts of Original Communications

Haemoglobin, zinc, selenium and manganese status of preterm infants at term.
L. D. Marriott, J. A. Bishop, A. C. Kimber, K. D. Foote, H. T. Delves & J. B. Morgan 2A
Assessing calcium intake in teenage girls: validation of a food-frequency questionnaire.
H. L. Lambert & M. E. Barker 2A
Effects of vitamin A deficiency during pregnancy on plasma amino acid profiles in the rat.
C. Antipatis, D. S. Brown, R. M. Palmer & C. J. Ashworth 3A
Activities of antioxidant metallo-enzymes in diabetic mothers and their offspring.
R. E. Sims, A. C. Phylactos, M. A. Crawford, C. Lowy & B. Offley-Shore 3A
The effect of dietary Mg supplementation on erythrocyte and plasma Mg concentrations in the follicular *v.* the luteal phase of the menstrual cycle in thirteen women with premenstrual symptoms compared with normal controls.
M. C. De Souza, A. F. Walker, P. A. Robinson, A. Morris & K. M. Bolland 4A

Vitamin B_6 status indices in a representative sample of British young people aged 4-18 years.
K. Pentieva, C. Bates & A. Prentice 4A
Poor iron status in children aged 1.5 to 4.5 years from a British national survey: associated dietary and socio-economic risk factors.
C. W. Thane, C. M. Walmsley & C. J. Bates 5A
Does energy density alone drive energy intake?
C. A. Reid & R. J. Stubbs 5A
Does short term therapeutic fasting affect psychological and physiological performance?
P. Faber, A. M. Johnstone, C. Shannon, L. Stevenson, D. Clerkin, C. A. Reid, E. R. Gibney, M. Elia & R. J. Stubbs 6A
Effects of graded increases of fat in the diet on quantitative and qualitative food intake in normal weight men.
N. Mazlan, T. Brick, C. A. Reid & R. J. Stubbs 6A
Ad libitum food intake as a measure of satiety: comparison of a single food test meal and a mixed food buffet.
S. J. Long, E. M. Griffiths, P. J. Rogers & L. M. Morgan 7A
Does the physical state of a meal influence appetite response and subsequent food intake?
S. J. Long, E. L. Grilli, P. J. Rogers & L. M. Morgan 7A
The effect of meal fat content and energy density on hormonal responses, gastric emptying and satiety in man.
S. J. Long, A. Giouvanoudi, W. B. Amaee, J. A. Sutton, N. Spyrou, P. J. Rogers & L. M. Morgan 8A
Effects of graded fat in the diet on energy and macronutrient intake in overweight men.
S. D. Connolly, E. L. Shannon, N. Mazlan, C. A. Reid & R. J. Stubbs 8A
The influence of maternal nutrient restriction between early to mid gestation on placental weight and leptin abundance in sheep.
V. Wilson, J. Dandrea, T. Stephenson, R. Webb & M. E. Symonds 9A
A biomarker for carbohydrate is still elusive: insulin-like growth factor-1 and its binding protein do not provide the answer.
A. Greenhalgh, J. Cade, B. Sanghera, M. Gibson, A. Heald, J. Sampayo, A. White & J. K. Cruickshank 9A
Comparison of retinyl esters and apolipoprotein B-48 as markers of dietary-derived lipoproteins in postmenopausal women: importance of the source of retinyl esters used to label the meals.
K. D. R. R. Silva, J. A. Lovegrove, J. W. Wright & C. M. Williams 10A
Effect of antecedent meal frequency on metabolic handling of a large meal in lean and obese subjects.
F. E. Leahy, S. A. Jebb, P. R. Murgatroyd & A. M. Prentice 10A
Alteration in postprandial lipid metabolism with increasing sucrose content of test meal.
J. Bennoson, K. Sassi, A. E. Jones & S. A. Wootton 11A
Effects of different patterns of brisk walking on plasma triacylglycerol concentrations throughout a day with normal meals.
M. H. Murphy, A. E. Hardman & A. M. Nevill 11A
Effect of breed and diet on polyunsaturated fatty acid composition in the phospholipid fraction of *longissimus dorsi* muscle in cattle.
N.- J. Choi, M. Enser, J. D. Wood & N. D. Scollan 12A
Diurnal variation in erythrocyte glutathione and glutathione reductase in normal adult males.
L. Yi, C. Persaud, N. R. Gibson & A. A. Jackson 12A
Effect of timing of tuna oil supply to the sow on piglet tissue composition at birth.
J. A. Rooke, A. G. Sinclair & V. C. Bland 13A
Effect of acute leptin administration on thermoregulation in day old lambs during non-rapid eye movement sleep.
A. Mostyn, E. J. Dastoor, T. Stephenson, R. Webb, D. H. Keisler & M. E. Symonds 13A

The effect of modified sham-feeding meals of varying fat content on postprandial triacylglycerol, insulin and glucose responses.
K. G. Jackson, M. D. Robertson, L. O. Deane, B. A. Fielding, K. N. Frayn & C. M. Williams 14A
Correlation between linoleic acid intake, and linoleic acid content of adipose tissue and LDL lipid fractions in subjects with substantial atherosclerotic plaques.
J. M. Garry, F. Thies, P. Yaqoob, D. Fowler, A. Chulakadabba, J. Williams, C. P. Shearman, P. C. Calder & R. F. Grimble 14A
Dose-dependent enrichment of blood and spleen leucocyte lipid fractions with eicosapentaenoic acid is independent of its position in dietary triacylglycerols.
S. Kew, F. Thies, S. M. Wells & P. C. Calder 15A
What is the appropriate VCO_2 term for ^{13}C breath tests in free living subjects?
C. Slater, T. Preston & L. T. Weaver 15A
The importance of α-linolenic acid as a source of long chain N-3 polyunsaturated fatty acids and its influence on risk factors of cardiovascular disease.
P. A. Wilkinson, E. Ah-Sing, C. Emery, A. Fereday, D. J. Millward, S. Richards, J. Sheppard & B. A. Griffin 16A
Postprandial concentrations of plasma deoxycholic acid after the consumption of different dietary fats in premenopausal women.
V. Costarelli & T. A. B. Sanders 16A
The effects of nutrients and complex phenols and tannins on salivary hormone and protein secretion in free living subjects.
B. A. Messenger, M. N. Clifford & L. M. Morgan 17A
Investigation of the effects of whole black tea on hormone levels in rat salivary glands.
B. A. Messenger, N. McArdle, M. N. Clifford & L. M. Morgan 17A
Oral load of I-methionine required to saturate trans-sulfuration pathway, impair glycine synthesis and increase plasma homocysteine in fasting normal males.
J. M. Jackson, A. G. A. Jackson, C. Persaud & A. A. Jackson 18A
Triacylglycerol-rich lipoproteins in postprandial plasma.
A. J. Hawdon, B. J. Gould & B. A. Griffin 18A
A comparison of four highly sensitive immuno-detection methods for apolipoprotein B-48.
N. Mohd-Esa & B. J. Gould 19A
An ultradian rhythm in urine volume and urea nitrogen excretion in normal adult males in the fed and fasted states.
L. Yi, N. R. Gibson, C. Persaud & A. A. Jackson 19A
Impaired postprandial lipid metabolism in middle-aged men.
M. A. Humayun, A. E. Jones, J. Bennoson & S. A. Wootton 20A
Does combined oral contraceptive use alter postprandial lipid metabolism?
H. A. Pawson, A. E. Jones, M. Masding, D. Sandeman & S. A. Wootton 20A
Purification of the major plasma lipid classes by solid phase extraction on aminopropyl silica cartridges.
P. Wright, G. C. Burdge, A. E. Jones & S. A. Wootton 21A
Variations in the serum cholesterol, Ferric reducing ability of plasma and LDL lagphase over 4 weeks in untreated human subjects.
M. Chopra, S. Kavanagh, P. Fitzsimons & D. I. Thurnham 21A
The effect of methionine depletion on IGF-I secretion and protein synthetic rate in ovine hepatocytes.
N. M. Wheelhouse, D. G. Hazlerigg, J. C. Macrae & M. A. Lomax 22A
Analysis of *ob* (obese) gene expression in porcine adipose tissues by a competitive reverse transcription polymerase chain reaction
N. L. Doble, D. G. Hazlerigg, S. A. Edwards & P. Trayhurn 22A
Plasma homocysteine and patterns of food consumption in people aged over 65 years.
B. M. Margetts, R. L. Thompson, C. J. Bates, M. A. Mansoor & A. A. Jackson 23A

Nutritional influences on peri and post-menopausal bone loss: interim 12 month findings from a five year longitudinal investigation in Scottish women.
S. A. New, H. M. Macdonald, S. P. Robins, M. H. N. Golden, D. A. Grubb & D. M. Reid 23A
Effect of moderate consumption of red wine or vodka on serum lipids, apolipoproteins and susceptibility of LDL to oxidation.
I. S. Young, P. Sharpe, C. Mercer, D. McMaster & A. E. Evans 24A
Decreasing phylloquinone (vitamin K_1) and total fat intake in a 10-year longitudinal study of Scottish adults.
C. Bolton-Smith, R. J. G. Price & M. J. Shearer 24A
The impact of a dietary intervention in a community based breakfast club: nutrient intake and measurement issues.
A. S. Anderson & A. Bell 25A
Impact of family eating habits on fruit and vegetable consumption in children aged 5½ to 8½ years.
P. J. Longbottom, W. L. Wrieden, C. M. Pine & J. A. Davies 25A
Influence of dietary intake on peak bone mass attainment in elite female ballet dancers and healthy age-matched controls: baseline results from a three-year longitudinal study.
S. A. New, C. E. Pearson, A. M. Gowing & N. J. Keay 26A
Use of habitual diet records to estimate the fats required to achieve target fatty acid intakes in an intervention study of subjects living in a residential setting.
C. N. M. Kelly, R. D. Smith, M. C. Nydahl & C. M. Williams 26A
Changes in nutrient intake in peri and early post-menopausal Scottish women over a five year period.
H. M. Macdonald, S. A. New, M. H. N. Golden, D. A. Grubb & D. M. Reid 27A
Urbanization and coronary heart disease risk factors in South Asian children.
R. Hakeem, J. Thomas & S. H. Badruddin 27A
Urbanization and atherogenicity of the diets of South Asian children.
R. Hakeem, J. Thomas & S. H. Badruddin 28A
Interaction between nutrition and physical activity on peak bone mass attainment: preliminary findings from a longitudinal study in elite female gymnasts and healthy age-matched controls.
S. A. New, J. A. Nurmi, J. A. Bishop, S. Carr-Bains, P. Taylor & C. Cooper 28A
Prevalence of dietary under-reporting by student volunteers residing in a fully-catered hall of residence.
R. D. Smith, K. King, C. N. M. Kelly, A. E. Jones, M. C. Nydahl & C. M. Williams 29A
Detailed analysis of fat sources in diets eaten in a residential hall: basis for planning a dietary intervention.
M. C. Nydahl, R. D. Smith, C. N. M. Kelly & C. M. Williams 29A
Socioeconomic differences in preschool-child-feeding practices in Karachi.
R. Hakeem & M. Khanum 30A
Nutrient intake and nutrient density of foods consumed by elite adolescent orienteers responsible for their own meals in boarding school.
A. K. Yngve, U. M. Ekelund & M. Sjöström 30A
The contribution of breakfast to the diet in the Stanislas cohort: family resemblance in energy intakes.
A. Herbeth, A. Lluch & G. Siest 31A
Nutrient intake in elite female gymnasts and healthy age-matched controls: analysis of baseline data.
J. A. Nurmi, J. A. Bishop, S. Carr-Bains, J. Gardner, F. S. Taylor & S. A. New 31A
Micronutrient intake, physical activity levels and lifestyle patterns amongst Surrey adolescent females: comparison of groups with different intakes of calcium.
J. Catterick, J. A. Bishop, A. Hunter, C. Mays & S. A. New 32A
Intra- and inter-individual variability and lack of seasonal variation of plasma phylloquinone (vitamin K_1) for Scottish men and women.
S. T. Fenton, C. Bolton-Smith, D. Harrington & M. J. Shearer 32A

Accuracy of self-reported data: anthropometric and household measurements.
T. N. Watson, H. S. Bates, A. Greenhalgh & J. Cade 33A
Evaluation of food photographs for use in estimating portion size in epidemiological research.
J. Pollard, J. Cade & A. Aslett-Bentley 33A
Can food groups be used as proxy measures for energy and selected nutrients in a population of pre-pubescent children?
K. I. Pirie & B. M. Margetts 34A
Young women's confidence about cooking skills in relation to food choice.
J. M. Lawrence, R. L. Thompson & B. M. Margetts 34A
Body mass index and fat distribution in Mongolian women.
C. Tuya, C. Wilkinson & G. McNeill 35A
Nutrition-public health links: current beliefs reported by general practitioners and practice nurses working in Scotland.
S. E. Morris, C. R. Hankey, M. E. J. Lean & C. M. Hunter 35A
Nutritional counselling by nurses working in Scottish family-planning services.
S. Tessier, S. E. Morris, J. F. Murray & M. E. J. Lean 36A
Patterns of colonic starch fermentation from infancy to adulthood.
M. T. Christian, C. A. Edwards, T. Preston, L. A. Johnston, R. Varley & L. T. Weaver 36A
A relationship between arachidonic and docosahexaenoic acids in the erythrocyte membrane of pregnant women and preterm infants.
M. Crawford, B. Thomas, K. Ghebremeskel, B. Offley-Shore & L. Lowy 37A
Association between socio-economic status and fatty acid status in women of child-bearing age.
C. Montgomery, C. Berry, N. Sattar, N. Caine, M. McMillan, J. Norrie & L. Weaver 37A
The formula-fed infant not consuming docosahexaenoate does not accumulate docosahexaenoate at the same rate as the breast-fed infant.
S. C. Cunnane, V. Francescutti, J. T. Brenna & M. A. Crawford 38A
Gastrointestinal handling and metabolic disposal of ^{13}C-labelled tripalmitin during rehabilitation from childhood malnutrition.
J. L. Murphy, V. A. Badaloo, E. N. Robinson, T. E. Forrester, S. A. Wootton & A. A. Jackson 38A
Whole-body protein turnover during pregnancy, maternal body composition and fetal outcome.
S. L. Duggleby & A. A. Jackson 39A
Physical activity, food intake and body fat in childhood.

Improving the nutritional status of women in an inner city population following the birth of a low birth weight baby.
W. Doyle, A. Srivastava, I. Golfetto, M. A. Crawford & K. L. Costeloe 49A
Iron status of preschool children aged 1.5 to 4.5 years: associations with breakfast cereals, vitamin C and meat.
S. A. Gibson 49A
Reduction in somatic cell count in cows' milk and mastitis by use of a selenium-containing multi-trace element-vitamin rumen bolus system.
R. G. Hemingway, J. J. Parkins, N. S. Ritchie & D. J. Taylor 50A
Effects of modified maternal body composition at farrowing and dietary protein in lactation on piglet growth.
A. G. Sinclair, V. C. Bland & S. A. Edwards 50A
Effect of intake on whole body plasma amino acid kinetics in sheep.
I. C. Savary, S. O. Hoskin & G. E. Lobley 51A
Relationship between efficiency of utilization of metabolizable energy for poultry and water extract viscosity in twelve wheat samples.
V. Pirgozliev, P. Rose, P. Kettlewell & M. Bedford 51A
Effect of choice-feeding during pregnancy on body composition of gilts at farrowing and piglet birth weights in two different genotypes.
G. Jones, S. A. Edwards, S. Hoste & S. Jagger 52A
Effects of different *Aspergillus* preparations on fermentation in the rumen-simulating fermenter, Rusitec.
C. J. Newbold, F. M. McIntosh & R. J. Wallace 52A

Stability and stabilization of potential feed additive enzymes in rumen fluid.
D. P. Morgavi, C. J. Newbold, D. E. Beever & R. J. Wallace 53A
Phytase supplementation of diets for laying hens.
G. R. Barkley, J. M. Forbes & H. M. Miller 53A
Effects of a defined fat emulsion, Olibra™ on energy and macronutrient intakes 4 h and 8 h post-consumption in lean, overweight and obese subjects.
A. A. Burns, M. B. E. Livingstone, R. W. Welch, P. J. Robson, A. Dunne, L. Lindmark & I. Rowland 54A
Protein intake and appetite control: differences between casein and whey as fast and slow proteins.
S. J. Long, C. E. Wood, A. P. Taylor, W. Hall & D. J. Millward 54A
Effect of supplements of fruit and vegetables on food intake, body weight and appetite among Scottish consumers.
H. Clark, C. L. S. Harrison, C. A. Reid, T. P. Gill & R. J. Stubbs 55A
Effect of a 36-hour fast on hunger, appetite and food intake in lean men and women.
A. M. Johnstone, P. Faber, D. Clerkin, C. Shannon, L. Stevenson, C. A. Reid, E. R. Gibney, M. Elia & R. J. Stubbs 55A
Validation of weighed intake and diet diary methods used to assess dietary intake in infants aged 6–12 months and children aged 12–24 months.
J. A. Lanigan, M. S. Lawson, J. C. K. Wells & A. Lucas 56A
Maternal and neonatal anthropometry.
P. H. C. Rondó & A. M. Tomkins 56A
Fatty acid composition of breast milk of Gambian mothers.
M. McMillan, J. Bunn, N. Caine, C. Montgomery & L. Weaver 57A
Erythrocyte acetylcholinesterase activity in neonates: evidence for linoleate-acetylcholinesterase interaction.
D. C. Bitsanis, K. L. Costeloe, A. C. Phylactos & M. A. Crawford 57A
Neutral fatty acid status of pregnant Korean women and their neonates compared with non-pregnant women.
Y. Min, K. Ghebremeskel, M. A. Crawford, J.-H. Nam, A. Kim & J.-N. Koo 58A
Breast milk fatty acid composition in Hong Kong and Mainland Chinese Women.
Z.-Y. Chen 58A
Fatty acid composition of maternal milk from insulin dependent diabetic, gestational diabetic and healthy control women.
B. Thomas, K. Ghebremeskel, B. Offley-Shore, C. Lowy & M. A. Crawford 59A
The fatty acid composition of mothers' plasma, cord plasma and breast milk of Karen women from Thailand refugee camps.
I. Golfetto, D. C. Bitsanis, L. Dubowitz, B. Heer & M. A. Crawford 59A
Factors associated with early adiposity rebound.
A. R. Dorosty, P. Emmett, I. Rogers & J. J. Reilly 60A
Influence of diet and socio-economic factors on the nutritional status of pre-school children in Uganda.
J. K. Kikafunda & A. F. Walker 60A
Development of waist circumference percentiles in British children aged 5.0 to 16.0 years.
H. D. McCarthy, H. F. Crawley & K. V. Jarrett 61A
A prospective cohort study of factors influencing breast-feeding initiation and duration in rural Australia.
R. M. Hughes & M. Landers 61A
Maternal protein deficiency alters the fetal growth trajectory during late gestation.
W. D. Rees, S. M. Hay, R. M. Palmer & C. Antipatis 62A
Metabolic properties of faecal samples from breast-fed and formula-fed babies.
P. M. Heavey, A. J. McBain, C. J. Rumney, I. R. Rowland, S.-A. H. Savage & C. A. Edwards 62A

Factors associated with the introduction of complementary foods to the preterm infant.
F. J. Norris, C. M. Williams, M. S. Larkin, S. M. Hampton & J. B. Morgan 63A
Food antibodies in breast-milk samples from mothers of preterm infants.
F. J. Norris, N. J. Beveridge, C. M. Williams, M. S. Larkin, J. B. Morgan & S. M. Hampton 63A
Investigation of bacterial colonization of the colon in breast-fed infants using novel techniques.
F. Martin, S.-A. H. Savage, A. M. Parrett, G. Gramet, J. Dore & C. A. Edwards 64A
Excretion of faecal starch and fat in breast-fed and formula-fed infants during weaning: a longitudinal study.
A. M. Parrett, S. Khanna & C. A. Edwards 64A
Identification of the obese child: adequacy of simple obesity definitions for clinical practice and epidemiology.
J. J. Reilly, A. R. Dorosty & P. Emmett 65A
An investigation of pre-operative fasting times.
Z. Brooke & J. Coad 65A
Sex differences in the risk of nutritional failure in children with cystic fibrosis.
H. Anthony, F. Mattinson, E. Volders & L. Bond 66A
Dietary fat and insulin resistance: influence of increased long-chain *n*-3 polyunsaturated fatty acid intakes or a reduced saturated fat intake on the insulin sensitivity of hormone sensitive lipase action in middle-aged men.
K. A. Slevin, A. C. Fereday, E. Ah Sing, A. Irvine, L. M. Morgan, C. M. Williams, J. Wright & D. J. Millward 66A
Diurnal variation in insulin sensitivity in man: effect of time of day on post-heparin plasma lipoprotein lipase activity.
M. P. Arasaradnam, R. Gama & L. M. Morgan 67A
An adverse low density lipoprotein-cholesterol response to fish oil supplementation is observed in subjects with an apoE4 genotype.
A. M. Minihane, P. J. Talmund, S. E. Humphries, M. C. Murphy, B. A. Griffin & C. M. Williams 67A
Effects of a multivitamin-multimineral supplement on metabolic parameters and psychological wellbeing in type II diabetes.
G. Marakis, A. F. Walker & H. Simpson 68A
The lactose [^{13}C]-ureide breath test for measuring oro-caecal transit time.
D. J. Morrison, B. Dodson, T. Preston & L. T. Weaver 68A
Altered metabolism of ^{13}C-labelled tripalmitin in cystic fibrosis patients compared with controls.
K. M. Laiho, J. Gavin, J. L. Murphy, G. J. Connett & S. A. Wootton 69A
The impact of a transferable programme of intensified nutritional counselling in cardiac rehabilitation following myocardial infarction.
W. S. Leslie, C. R. Hankey, J. E. P. Currall, D. Matthews & M. E. J. Lean 69A
A comparison of actual relative weight with perceived body shape of Dublin primary schoolchildren.
A. C. Griffin & M. A. T. Flynn 71A
Energy expenditure and its component in relation to body fatness and risk of obesity in primary school children.
A. F. McGloin, M. B. E. Livingstone, L. C. Greene, S. E. Webb, J. M. A Gibson, S. A. Jebb, T. J. Cole, W. A. Coward, A. Wright & A. M. Prentice 71A
Health Behaviour in School Children (HBSC): food habits of dieting teenagers.
G. Nolan, S. Friel, S. Nic Gabhainn & C. Kelleher 72A
Tracking of snacking patterns reported by Northern Ireland adolescents.
P. J. Robson, A. M. Gray, M. B. E. Livingstone, G. W. Cran, J. J. Strain, J. M. Savage & C. A. G. Boreham 72A
Nutritional value of different types of school meals.
W. L. Wrieden, A. Bell & R.-A. Main 73A

The nutritional adequacy of school meals: a pilot study in preparation for the introduction of standards, 2002.
S. L. Reeves, V. Halpenny, E. Bowers & S. Talbot 73A
A comparison of energy, food and nutrient intakes between a private hospital and two public hospitals.
R. Shirley & M. Moloney 74A
Patient satisfaction and food wastage in a private hospital: a comparison with two public hospitals.
A. Heffernan & M. Moloney 74A
Oral nutritional supplements: method of distribution, prescription *v* receipt.
E. B. O'Sullivan, P. Flood, G. Ryan, M. Moloney 75A
Home tube feeding in Dublin: a comparison of the practices of a paediatric hospital in Dublin with the BAPEN standards.
E. McNamara, M. Breslin, P. Flood & N. P. Kennedy 75A
Anthropometric data of healthy elderly Irish subjects.
C. Corish, P. Flood & N. P. Kennedy 76A
Anthropometric measurements in inflammatory bowel disease.
S. Lindsay, A. Cahill & M. E. J. Lean 76A
Improved nutritional and clinical management increases growth in children with human immunodeficiency virus infection.
E. Ball, D. Duiculescu, M. O'Sullivan, E. Mihai, P. Calistru & P. M. Mathias 77A
Supplementary feeding with Nutrifil reduces malnutrition and improves growth in institutionalized neurologically handicapped children in Romania.
M. O' Sullivan, E. Ball & P. M. Mathias 77A
Public health nurses: attitudes to and perceptions of the community nutrition service.
E. Mallon & K. Younger 78A
Survey on Lifestyle, Attitudes and Nutrition, SLÁN: risk factor profile of diabetic respondents.
J. Harrington, S. Friel & C. Kelleher 78A
Survey on Lifestyle, Attitudes and Nutrition (SLÁN): food habits of those aged 65 years and over.
K. Rossnagel, S. Friel & C. Kelleher 79A
Consumer motivation and high nutrient availability in relation to food.
N. C. Ester & C. M. Delahunty 79A
Trends in dietary intake over 10 years by sex in an area of social deprivation and high risk of coronary heart disease.
W. L. Wrieden, H. Tunstall-Pedoe, M. K. Hannah & C. Bolton-Smith 80A
Alteration of dietary fat and carbohydrate intakes in Irish males: a feasibility study.
P. O'Connor & M. A. T. Flynn 80A
Food and nutrient intakes in pregnant Irish adolescents and young women.
S. E. Floyd, P. J. Finn, S. Patterson & M. A. T. Flynn 81A
Adaptations to folate requirement in pregnancy.
E. P. Quinlivan, J. McPartlin, D. G. Weir & J. M. Scott 81A
Folic acid fortification of bread: effect of chronic consumption on unmetabolised folic acid in serum.
M. R. Sweeney, J. McPartlin, D. G. Weir & J. M. Scott 82A
Differences in erythrocyte folate values measured by microbiological and radiometric assays.
B. M. J. Wilson, H. McNulty, J. McPartlin, J. J. Strain, D. G. Weir & J. M. Scott 82A
Effect of folic acid-fortified foods on the folate status of folate-deficient rats.
K. O'Leary & P. J. A. Sheehy 83A
Low dose vitamin B_6 lowers fasting homocysteine levels.
M. C. McKinley, H. McNulty, J. McPartlin, J. J. Strain, D. G. Weir & J. M. Scott 83A
Effect of dietary antioxidants on *in vitro* oxidation of low density lipoprotein under physiologically relevant oxidising conditions.
C. O'Hagan, J. McEneny & I. S. Young 84A

Incorporation of low doses of fish oils into platelet phospholipids and effects on postprandial plasma lipids and lipoproteins.
A. M. Tully, E. J. Noone, H. M. Roche & M. J. Gibney 84A
The effect of dietary intake of low dose fish oil for 16 weeks on cholesteryl ester transfer protein mass activity, and on plasma and HDL lipids.
E. Noone, H. M. Roche, I. Black, A. M. Tully & M. J. Gibney 85A
Effect of supplementing healthy volunteers with low dose *n*-3 polyunsaturated fatty acids (*n*-3 PUFA) on the susceptibility of low density lipoprotein (LDL) to oxidative modification.
S. Higgins, Y. L. Carroll, N. M. O' Brien & P. A. Morrissey 85A
Assessment of bioavailability of *n*-3 polyunsaturated acids (PUFA) in foods enriched with microencapsulated fish oil.
J. M. W. Wallace, A. T. McCabe, M. K. Keogh, C. A. Murray, P. M. Kelly, W. S. Gilmore & J. J. Strain 86A
Modulation by α-tocopherol and α-tocopherol acetate of oxysterol-induced apoptosis in U937 cells.
N. M. Lyons, J. A. Woods & N. M. O' Brien 86A
Effect of vitamin E on hydrogen peroxide and menadione-induced Sister Chromatid Exchange (SCE) in V79 cells.
K. A. O'Leary, J. A. Woods & N. M. O'Brien 87A
The effect of flavonoids on repair of hydrogen peroxide-induced DNA damage in Caco-2 cells.
S. A. Aherne & N. M. O'Brien 87A
The effect of citrus phytochemicals limonin and nomilin on glutathione-S-transferase activity in rat liver.
C. Kelly, C. Jewell & N. M. O'Brien 88A
The effect of meal casein phosphopeptide content on calcium absorption in the rat.
T. Bennett, A. Desmond, D. McDonagh, R. Fitzgerald, A. Flynn & K. D. Cashman 88A
The effect of dietary sodium and protein intakes on bone composition and bone resorption in the rat.
A. Creedon, A. Flynn & K. D. Cashman 89A
The effect of casein phosphopeptides and sugar alcohols on calcium bioavailability in Caco-2 cells.
T. Bennett, S. Kennefick & K. D. Cashman 89A
Inhibitory effect of wheat-fibre extract on calcium bioavailability in Caco-2 cells.
K. D. Cashman, S. Kennefick & T. Bennett 90A
Vitamin D receptor gene polymorphisms (detected by *Taq* I and *Fok* I endonucleases) and circulating osteocalcin in healthy Irish adults.
D. Sheehan, T. Bennett & K. D. Cashman 90A
Vitamin and mineral intake in a population at high risk from coronary heart disease and its relationship with smoking and blood pressure.
P. M. L. Skidmore, J. W. G. Yarnell, I. S. Young, D. McMaster & J. V. Woodside 91A
Can plasma antioxidant levels act as biomarkers of low density lipoprotein (LDL) antioxidant concentrations?
S. Higgins, Y. L. Carroll, N. M. O'Brien & P. A. Morrissey 91A
Apolipoprotein E gene polymorphisms and serum cholesterol in healthy Irish adults.
D. Sheehan, T. Bennett & K. D. Cashman 92A
Selenium content of a range of Irish foods.
J. Murphy, B. Mulvihill & K. D. Cashman 92A
Sodium iron (III) EDTA as an iron fortificant in breakfast cereals.
G. Wortley, B. Teucher, S. Fairweather-Tait, A. Twaite, J. Dainty & N. Almeida 93A
Regional differences in foods eaten by a national sample of 4-year-old children in 1950.
C. J. Prynne, A. A. Paul, R. J. Hardy & M. E. J. Wadsworth 93A
Pilot study of self-reported associations between foods and heartburn in outpatients with gastroesophageal reflux.
H. Bonney & S. E. Morris 94A

Still hungry in hospital: identifying malnutrition in acute hospital admissions.
S. Tessier, I. E. Kelly, A. Cahill, S. E. Morris, A. Crumley, D. McLaughlin, R. F. McKee & M. E. J. Lean 94A
Relationship between the volatile composition and sensory character of cheese.
J. B. P. Lawlor & C. M. Delahunty 95A
Factors influencing binding of low density lipoproteins to collagen.
J. Cundick, J. McEneny & I. S. Young 95A
Decreased serum homocysteine in pregnancy: possible role in methylation cycle regulation.
E. P. Quinlivan, J. McPartlin, D. G. Weir & J. M. Scott 96A
The use of the comet assay to determine the mode of cell death induced by oxysterols *in vitro*.
Y. C. O'Callaghan, J. A. Woods & N. M. O'Brien 96A
DNA repair in hydrogen peroxide-treated Caco-2, HepG2 and V79 cells.
S. A. Aherne & N. M. O'Brien 97A
The effect of α-tocopherol, γ-tocopherol and β-carotene on oxidant-induced injury of proliferating human intestinal CaCo-2 cells.
J. A. Woods & N. M. O'Brien 97A
Qualitative and quantitative changes in energy intake following human liver denervation.
I. Davidson, R. A. Richardson & O. J. Garden 99A
The evaluation of the best strategy to increase muscle mass and improve the health in obese women.
L. O. Pereira, M. Klopfer, P. Vieira, R. Francischi, R. Camargo, C. Freitas, L. Sawada, P. Campos & A. H. Lancha Jr 99A
β-hydroxy β-methylbutyrate supplementation improves lean mass retention in resistance-exercise trainers during a period of increased energy expenditure.
D. D. Cohen, O. Obeid & J. A. Wade 100A
Nutritional status and immunocompetence in Spanish, overweight or obese, aged individuals.
P. Varela, P. García-García, R. M. Ortega, E. Quintas & A. M. Requejo 100A
Nutritional profile according to energy density of the diet in a Mediterranean population.
G. C. Pastor, V. A. Val, J. Fernández-Ballart & C. Marti-Henneberg 101A
Influence of regional adipose tissue fatty acid compositions on the plasmatic lipid profile.
M. Garaulet, F. Pérez-Llamas, M. Pérez-Ayala, F. Rueda, F. J. Tebar & S. Zamora 101A
Evaluation of protein depletion in underweight anorexia nervosa patients during refeeding.
E. Nova, I. López-Vidriero, O. Toro, P. Varela, J. Casas & A. Marcos 102A
Consumption of food and nutrients in an institutionalized group of mentally retarded people.
M. Arroyo & A. M. Rocandio 102A
Intake of daily food servings in school children.
A. M. Rocandio, L. Ansotegui & I. Mellado 103A
The "Toledo Area Study". Prevalence of overweight and obesity.
F. J. Sanchez-Muniz, S. Bastida, S. Perea, R. Cuena & A. Aragonés 103A
Prevalence of Obesity in Institutionalized Elderly People. Relationship with Sex and Age.
R. Royo, A. López & A. Hernández 104A
Variations in the prevalence of obesity depending on different reference population data.
F. Soria, C. González, M. Á. López, E. Fernández, M. Garaulet, F. Pérez-Llamas & S. Zamora 104A
Eating behaviour and nutritional concerns among female dance and non-dance students.
M. Yannakoulia, M. Sitara & A.-L. Matalas 105A
Overweight and lipid profile in preschool children from low income families in Valencia, Venezuela.
L. Solano, A. Sanchez, M. Paez, S. Del Real & E. Peña 105A
Obesity and anthropometric risk during the first trimester of pregnancy. Cluster multivariant analysis.
A. Sanchez, E. Peña, L. Solano & A. Garcia 106A

Body fat increase during pregnancy.
E. Peña, A. Sanchez & L. Solano 106A
Nutritional status in Chilean schoolchildren according to different classifications.
G. Salazar, S. Guevara, J. Kain & F. Vio 107A
Association among anthropometric data, fasting insulin levels, serum lipids and dietary intake in an adolescent population.
J. C. Baraza, A. Martínez-González, F. Sánchez, M. Garaulet, F. Pérez-Llamas & S. Zamora 107A
Nutritional status of ballet dancers and elite gymnasts: A comparative study.
S. López-Varela, A. Montero, E. Larque, S. Zamora, R. K. Chandra & A. Marcos 108A
Changes in BMI, feeding habits and menopause.
P. Montero, C. Bernis, C. Varea, S. Arias, A. Barroso & B. González 108A
Interstitial glycerol concentration in rat subcutaneous and epididymal adipose tissues assessed *in vivo* by microdialysis technique.
J. M. Villaro, M. T. Macarulla, M. I. Torres & M. P. Portillo 109A
Effects of trecadrine, a β3-adrenergic agonist, on leptin secretion and glucose uptake in primary rat adipocytes.
M. J. Moreno-Aliaga, P. J. Havel, K. Stanhope, M. P. Fernandez-Otero & J. A. Martinez 109A
Time-dependent regulation of some white adipose tissue genes involved in adipogenesis and in thermogenesis after cafeteria feeding.
J. Margareto, M. Corbalán, A. Marti & J. A. Martínez 110A
Leptin increases metabolites oxidation in isolated rat adipocytes.
W. N. William Jr, R. B. Ceddia, F. B. Lima, J. P Giacobino & R. Curi 110A
The effect of dietary fatty acids on the expression of genes involved in lipid handling.
C. E. Donnellan, M. Tadayyon, C. Briscoe, J. Arch & P. C. Calder 111A
Effects of a cafeteria diet on the expression of Retinoic Acid (RAR), Triiodothyronine (TR) and Peroxisome Proliferator Activated (PPAR) nuclear receptors in the rat liver.
A. Redonnet, C. Noel-Suberville, S. Bonilla, R. Groubet, A. Martinez & P. Higueret 111A
Nutritional-induced changes in the peroxisome proliferator-activated receptor-α (PPARα) gene expression in liver of sucking rats.
M. I. Panadero, E. Herrera & C. Bocos 112A
Stimulation of glucose metabolism in rat adipose tissue by substrates of semicarbazide-sensitive amine oxidase and monoamine oxidase: *in vitro* and *in vivo* studies.
N. Morin, D. Prévot, X. Testar, J. Galitzky, M. Lafontan & C. Carpéné 112A
Whole seeds and a protein isolate of faba bean have different effects on faecal excretion of total lipids, cholesterol and biliary acids in hypercholesterolaemic rats.
C. Medina, M. P. Portillo, M. A. De Diego, M. A. Zulet, J. A. Martínez & M. T. Macarulla 113A
Fatty acid composition of liver phospholipids and triacylglycerols in rats fed on diets containing two different saturated fats.
D. Duran, M. T. Macarulla, M. I. Torres, V. Ruiz, J. Sánchez & M. P. Portillo 113A
Nitric oxide in diets with excess fat: its influence on pancreatic lipase and nutritional indicators.
M. González, B. Caride, M. A. Lamas & M. C. Taboada 114A
Role of nitric oxide in the regulation of hidroxy-3-methylglutaryl-coenzyme reductase and some plasma parameters in rats fed a hypercaloric diet.
B. Caride, M. González, M. A. Lamas & M. C. Taboada 114A
Functional characterization of the short isoform of the leptin receptor (muB1.219) expressed in *Xenopus laevis* oocytes.
A. Barber, A. Marti, J. A. Martinez & M. P. Lostao 115A
Protein metabolism changes and amino acid balance in overweight rats.
E. Simón, M. P. Portillo & A. S. Del Barrio 115A
Amino acid balance in overweight rats after treatment with a diet containing medium-chain fatty acids.
E. Simón, M. P. Portillo & A. S. Del Barrio 116A

Effects of a pharmacological induction of PPAR (Peroxysome Proliferators Activated Receptors) by Bezafibrate on the expression of nuclear receptors in rat liver.
S. Bonilla, A. Redonnet, R. Groubet, P. Higueret & C. Noel-Suberville 116A
Lipid absorption profiles associated with gastrointestinal transit responses to chronic high-fat feeding in rats.
A. Shafat, B. Murray & D. Rumsey 117A
High dietary folate supplementation in weanling rats.
M. Achón, N. Úbeda, M. Gallardo, E. Alonso-Aperte & G. Varela-Moreiras 117A
Methionine metabolism and hepatotoxicity induced by valproate in mice.
L. Reyes, R. Póo, G. Varela-Moreiras & E. Alonso-Aperte 118A
Role of semicarbazide-sensitive amine oxidase and monoamine oxidase in glucose transport and adipogenesis in cultured adipocytes.
E. Fontana, J. Boucher, V. Trocheris, C. Merial & C. Carpéné 118A
Valproate acute administration to rats: implications for mechanisms of teratogenesis
N. Úbeda, M. Achón, G. Varela-Moreiras & E. Alonso-Aperte 119A
Zucker obese (*fa/fa*) rats lipoprotein profile shows a higher proportion of chylomicra than that of the lean, which results in marked hyperlipidaemia.
J. Peinado, J. Julve, M. T. Blay, V. Rodríguez, J.-A. Fernández-López, X. Remesar & M. Alemany 119A
Dietary *trans* fatty acids affect hepatic Δ6 fatty-acid desaturase activity and docosahexaenoic acid levels in plasma and liver of pregnant rats.
E. Larqué, S. Zamora & Á. Gil 120A
Influence of dietary *trans* fatty acids on the polyunsaturated fatty acid content of rat milk.
E. Larqué, S. Zamora, A. Marcos, S. López-Varela & Á. Gil 120A
rhGH administration induced a shift in the body fat gain/body protein gain ratio towards body fat deposition in mice fed 12% or 20% protein diet.
A. Agis-Torres, M. E. López-Oliva, M. T. Unzaga & E. Muñoz-Martínez 121A
Changes in food intake, food efficiency, body weight, liver, and spleen mass associated with consumption of a high polyunsaturated fatty acid diet.
A. M. Pérez-Granados, M. P. Vaquero & M. P. Navarro 121A
An investigation of the role of oro-sensory stimulation in sugar satiety.
J. Lavin & N. Read 122A
Adaptation of Energy Intake to Energy Expenditure in Humans.
M. S. Westerterp-Plantenga 122A
Modified sham feeding of a modest-fat meal suppresses plasma non-esterified fatty acids.
M. D. Robertson, K. G. Jackson, C. M. Williams, B. A. Fielding & K. N. Frayn 123A
The effect of habitual exercise level upon appetite response and food intake following high and low energy preloads.
S. J. Long, K. H. Hart & L. M. Morgan 123A
Restoration of energy balance following a diet- or exercise-induced energy deficit.
M. S. Moore, P. R. Murgatroyd, G. R. Goldberg & S. A. Jebb 124A
Differences in substrate oxidation and risk factors for obesity in Chilean low socio-economic level women.
E. Diaz, R. Ratner, C. Urteaga, V. Gattas & J. Galgani 124A
Body composition by dual-energy x-ray absorptiometry before, during and after weight loss in obese volunteers.
M. C. W. Van Wijk, T. P. Gill, E. Rennie & W. P. T. James 125A
Short-term metabolic changes and de novo lipogenesis induced by a high-carbohydrate meal in lean and obese subjects.
I. M. Lopes, D. Ansorena, L. Forga, I. Astiasarán & J. A. Martínez 125A
Influence of fresh and heated yoghurt on lactose digestion and tolerance, gastric emptying and orocecal transit time in lactose malabsorbers.
I. Labayen, L. Forga, A. González, I. Lenoir & J. A. Martínez 126A

Arm span and knee height as indexes of stature in expression of body composition in elderly people.
B. Beltrán, C. Cuadrado, Á. Carbajal & O. Moreiras 126A
The effects of breakfast skipping on physiological and psychological well-being.
R. Moore & N. W. Read 127A
Maternal experience associated with changes in body mass index and distribution of body adiposity.
T. H. M. Da Costa, M. De Lourdes & C. F. Rodrigues 127A
Pubertal maturation does not reduce total fat in the obese child. Comparative analysis of two measurement techniques: anthropometry and DEXA.
D. Llop, I. Barber, B. Vizmanos & C. Martí-Henneberg 128A
Rate of gestational weight change in women from preconception until birth.
V. Arija, M. Murphy, J. Vila, R. Iranzo & J. Fernandez-Ballart 128A
The role of the school canteen in the prevention of obesity.
A. Roset, B. Gonzalvo, A. Santaularia, J. Serra & M. Castells 129A
Biochemical markers of bone formation in healthy institutionalized elderly subjects: relationship with age and sex.
R. Moreno-Torres, M. D. Ruíz-López, R. Artacho, P. Oliva, D. Solano, J. Jiménez & M. C. Martínez 129A
Body measurement changes in obese growth hormone treated patients.
A. R. Ghione Pelayo, C. I. De La Mata, A. Pietrobelli, J. C. Montero & L. Del C. Zamponi 130A
Changes in the quantitative and qualitative composition of fat from trout due to "sous vide" processing. Comparison with traditional cooking methods.
M. C. García-Linares, M. T. García-Arias, M. Tome, R. Capita & M. C. García-Fernández 130A
Serum zinc levels in a HIV/AIDS population in Granada, Spain: its relationship with nutritional and immunological parameters.
M. T. Moreno, M. D. Ruíz-López, R. Artacho & A. Pérez de la Cruz 131A
Effects of beer, wine and ethanol consumption on homocysteine metabolism in rats.
R. Póo, L. Reyes, E. Alonso-Aperte & G. Varela-Moreiras 131A
Obesity and thiamin metabolism.
C. Patrini, A. Griziotti & L. Ricciardi 132A
Effects of added lactoferrin on iron dialysability in infant formulas.
M. Jovani, R. Barbera & R. Farre 132A
Effects of surgery for morbid obesity on serum retinol, α-tocopherol and main carotenoids levels: preliminary results from a long-term follow-up study.
I. Bretón, C. Cuerda, M. Camblor, A. Soto, F. Granado, B. Olmedilla, B. Moreno & P. García-Peris 133A
Iron metabolism in rats fed diets containing heated Glucose-Lysine.
C. Delgado-Andrade, I. Seiquer, A. Valverde & M. P. Navarro 133A
Effects of the heat treatment of casein on Zn transport and uptake by Caco-2 cells.
I. Seiquer, C. Delgado-Andrade & P. Navarro 134A
Zinc bioavailability in dietetic preparations used in slimming diets consumed with and without milk.
M. P. Navarro & M. Aguirre 134A
Endocrine, metabolic and nutritional factors in the establishment of obesity and their relative significance.
M. Garaulet, F. Pérez De Heredia, F. Pérez-Llamas, M.Canteras, M. Serrano, F. J. Tebar & S. Zamora 135A
Relationship between regional adipose tissue cellularity and plasma levels of leptin and insulin.
M. Garaulet, F. Pérez-Llamas, M. J. Dato, T. Fuente, F. J. Tebar & S. Zamora 135A
The pathogenesis of chronic intestinal failure in Crohn's disease.
A. O. Agwunobi, G. L. Carlson, I. D. Anderson, M. H. Irving & N. A. Scott 137A

Differences in body composition between colonic and ileal Crohn's disease.
D. Meister, W. Keller, W. J. Hannan, C. Millar & S. Ghosh 137A
Judgement of health and longevity based on body size and shape.
E. K. Truscott, E. L. Gates, T. S. Han, C. E. Morrison & M. E. J. Lean 138A
The effect of glutamine supplementation on RNA turnover in critically-ill patients.
S. B. Malik, M. O'Leary, G. K. Grimble, C. J. Hinds & J. H. Coakley 138A
Electrode placement for multifrequency bioelectrical impedance analysis: proximal or distal electrodes?
D. Meister, W. Keller & S. Ghosh 139A
Determining the incidence of hospital trust malnutrition to plan and target nutritional support strategies.
H. J. Peake, S. C. Evans, A. A. Maltby, J. Bartram & G. S. Frost 139A
The benefit of light or moderate activity in older men with coronary heart disease.
S. G. Wannamethee & A. G. Shaper 142A
Changes in diet, exercise and coronary heart disease risk factors: results of a lifestyle intervention in men and women with impaired glucose tolerance after 6 months follow-up.
J. C. Oldroyd, N. C. Unwin, J. C. Mathers & M. White 142A
Does exercise attenuate the increase in postprandial plasma triacylglycerol attributable to a short-term high-carbohydrate diet?
C. Koutsari, M. R. B. Derblay & A. E. Hardman 143A
Long-chain *n*-3 polyunsaturated fatty acids: modulation of a high-risk lipoprotein phenotype.
S. Khan, A. Minihane, N. Furlonger, M. Murphy, J. Wright, C. M. Williams & B. A. Griffin 143A
Changes in muscle fibre composition are associated with changes in glucose disposal in a minipig model of Type 1 diabetes.
D. J. Freeman, V. Wilson, J. Canavan, P. Home & V. M. Cox 144A
Plasma apoprotein B : low-density lipoprotein cholesterol ratio as a marker of small, dense low-density lipoprotein.
B. A. Griffin, N. Furlonger & A. Iversen 144A
Plasma homocysteine, folate and methylenetetrahydrofolate reductase genotype in men with angina: a controlled trial of dietary intervention to increase soluble dietary fibre.
I. F. W. McDowell, P. A. L. Ashfield-Watt, Z. E. Clark, S B. Cale, P. Breay, N. Payne & M. L. Burr 145A
Losing weight in older age: why is there no apparent benefit?
S. G. Wannamethee, A G. Shaper, P. H. Whincup & M. Walker 145A
Primary/secondary care interface audit of management of hyperlipidaemia in ischaemic heart disease.
M. Kumwenda, M. Biswas, L. Thomas, G. J. Green & C. Bellamy 146A
The role of Copper and Caeruloplasmin in tissue factor and endothelin release from endothelial cells: the importance in atherosclerosis.
F. Al-Ubaidi, J. Andoh & C. A. Seymour 146A
Nephrotic dyslipidaemia: treatment with a statin or a fibrate?
M. J. Caslake, C. J. Deighan, M. McConnell, M. J. Boulton-Jones & C. J. Packard 147A
Type II diabetes meeting targets in clinical practice.
M. Biswas, M. J. Kumwenda, A. Kallet, D. Borsey & K. Rizvi 147A
Responses to fish-oil supplementation in patients with extreme hypertriacylglycerolaemia.
D. L. Hartwell, S. Ahmed, D. R. Matthews, S. M. Humphreys & K. N. Frayn 148A
Uses of abdominal diameters as predictors of intra-abdominal adipose tissue in obese subjects.
E. G. Kamel, C. McNeill & M. C. W. Van Wijk 148A
A comparison of lipoprotein lipase gene expression in non-insulin-dependent diabetes (NIDDM) and control subjects.
N. M. Rashid, B. J. Gould & M. C. Murphy 149A

Experience with treatment of familial defective apolipoprotein B patients. Analysis of eighteen cases.
M. Vrablík, R. Češka, A. Hořínek, T. Kvasnička & B. Hořejší 149A
The effect of consuming peanuts on heart health.
L. McKerchar 150A
The impact on parenteral nutrition provision when an advisory nutrition support team obtains mandatory status for the supply of parenteral nutrition.
R. E. A. Newton, L. Timmis & T. E. Bowling 152A
Dietary modification is the important first step in the therapy of non-alcoholic Steatohepatitis.
J. Johnson, S. Saksena & E. Elias 152A
How useful are the BAPEN four questions as the basis for a nutrition screening tool?
E. Weekes 153A
Hepatocyte mitochondrial metabolism in neonatal sepsis is restored by glutamine.
M. A. Markley, S. Eaton & A. Pierro 153A
Prescribing of nutritional supplements in primary care: can education improve appropriateness?
H. J. Wanstall, M. J. Gall & J. E. Harmer 154A
Value of acridine orange leucocyte cytospin (AOLC) in prolonging the survival of central venous catheters with suspected catheter-related sepsis: a prospective study.
J. J. Bong, B. J. Ammori, P. Kite, M. H. Wilcox & M. J. McMahon 154A
Audit of enteral feeding practices on a children's intensive care unit at the Children's Hospital, Leicester Royal Infirmary NHS Trust.
S. McDowell 155A
An audit of the provision of parenteral nutrition in two acute hospitals: team *v.* non-team.
S. B. Fettes 155A
Efficacy of using a food fortification approach to increase the energy of long stay residential patients who are at risk of malnutrition.
K. Ashbolt, J. Snyder, C. Whittle, H. Warwick, J. L. Murphy & S. A. Wootton 156A
An evaluation of recalled *v.* measured height as an aid to identification of malnourished patients in hospital.
E. Weekes 156A
The effect of enteral nutrition in allogeneic bone marrow transplant patients on length of hospital stay, pyrexia, diarrhoea, nausea and vomiting.
A. J. Todd, P. J. Dickinson, A. E. Brynes & G. S. Frost 157A
Modulation of the albumin synthetic response to feeding in patients with advanced pancreatic cancer.
M. D. Barber, T. Preston, C. Slater, D. C. McMillan, J. A. Ross & K. C. H. Fearon 157A
Energy balance in women with early breast cancer receiving chemotherapy: possible effects of tumour burden.
M. N. Harvie, I. T. Campbell, N. Thatcher, A. Howell & A. Baildam 158A
Effect of nitric oxide on neonatal hepatocyte oxidative metabolism.
C. Romeo, S. Eaton, L. Spitz & A. Pierro 158A
Increased body mass following liver transplantation: a denervation phenomenon?
R. A. Richardson, O. J. Garden & H. I. M. Davidson 159A
Dual frequency bioelectrical impedance analysis does not detect intraluminal water changes within the gastrointestinal tract or urinary bladder in healthy volunteers.
J. A. Anderson, J. A. D. Simpson, D. N. Lobo, I. A. Macdonald, B. J. Rowlands, S. P. Allison & K. R. Neal 159A
Disease progression and fat-soluble micronutrients in cystic fibrosis patients with and without *Burkholderia cepacia*.
L. C. Dowey, L. T. McGrath, L. Martin, J. S. Elborn, H. McGlynn & D. I. Thurnham 160A

Clinical response of ulcerative colitis with dietary supplementation by *n*-3 fatty acids: a double-blind, randomized study.
T. J. Varghese, D. Coomansingh, S. Richardson, P. W. Brunt, N. A. G. Mowat, A. Eltahir & O. Eremin 160A
Acute human endotoxaemia reproduces the effects of sepsis on substrate utilization and insulin sensitivity.
A. O. Agwunobi, C. Reid, P. F. Maycock, R. A. Little & G. L. Carlson 161A
Relationship between leptin, inflammation and disease severity in surgical patients with systemic inflammatory response syndrome (SIRS).
T. Quasim, D. C. McMillan, A. M. Wallace & J. Kinsella 161A
Effect of critical illness on circulating leptin concentrations.
M. Elia, I. T. Campbell, C. Reed, G. Jennings & P. G. Lunn 162A
Neonatal hepatic oxidative metabolism following endotoxaemia.
M. A. Markely, S. Eaton & A. Pierro 162A
Intestinal metabolism in the model of intestinal ischaemia-reperfusion.
P. Vejchapipat, S. R. Williams, L. Spitz & A. Pierro 163A
Effect of different types of energy restriction on circulating concentrations of ferritin and transferrin receptor in healthy males.
E. R. Gibney, A. M. Johnstone, P. Faber, R. J. Stubbs & M. Elia 163A
Effect of 5 days total starvation in healthy men uncomplicated by disease on circulating levels of plasma folate, B_{12} and bilirubin.
E. R. Gibney, P. Faber, A. M. Johnstone, R. J. Stubbs & M. Elia 164A
The use of peripherally inserted central catheters for the administration of parenteral nutrition.
R. C. C. Lord & K. Maden 164A
Long-term safety of a new injectable lipid emulsion, ClinOleic, in patients on home parenteral nutrition.
S. Thomas-Gibson, A. Forbes, A. Jawhari, P. Atlan & A. Le Brun 165A
Intravenous medium-chain triacylglycerol administration is associated with increased free radical activity.
R. Basu, D. P. R. Muller, J. Drury, R. W. Cooke, S. Eaton & A. Pierro 165A
Consistent differences in total body water as determined by two different bioelectrical impedance analysis devices.
J. A. D. Simpson, J. A. Anderson, D. N. Lobo, I. A. Macdonald, B. J. Rowlands, S. P. Allison & K. R. Neal 166A
A comparison of subjective global assessment (SGA) with other methods of screening for malnutrition.
P. J. Matthews, L. Miller & D. A. F. Lynch 166A
Dietary intake in patients with advanced cancer patients receiving chemotherapy.
M. N. Harvie, I. T. Campbell, N. Thatcher, A. Howell & A. Baildam 167A
Hypoalbuminaemia, the inflammatory response and survival in the critically ill surgical patient.
T. Quasim, D. C. McMillan, J. Kinsella & M. G. Booth 167A
Use or abuse? A single unit study of perioperative total parenteral nutrition in a major nutritional centre.
H. L. Wyrley-Birch, L. J. Harper, A. O. Agwunobi, R. Malik & G. L. Carlson 168A
The impact of a formal enteral feeding policy when introduced in the intensive care unit.
J. Morais, R. Horsman, A. Richardson & C. Middleton 168A
Observational audit of mealtime care.
J. Miller & C. O'Hara 169A
The effect of a new nutrition nurse and nutrition support team on catheter related sepsis rates and catheter survival time.
K. Ward, N. C. Strain, C. Wright, A. J. Makin & J. L. Shaffer 169A

A prospective economic evaluation of the cost of a catheter related sepsis: best care scenario *v* worst case scenario and the impact of a Nutrition Support Team on cost savings.
K. Ward, N. C. Strain, C. Wright, M. James & A. J. Makin 170A
Does the input of a hospital/community liaison nurse improve the quality of care for home parenteral nutrition patients?
C. Hall & A. Myers 170A
Height measurement and body mass index in recumbent patients using a hand-held ultrasonic device.
S. P. Burnham, S. Langran, C. A. McKenzie & S. J. C. Taylor 171A
Leaking gastrostomies.
J. M. D. Nightingale, F. Smedley, C. Porrett, G. Simmonett, C. Wheatley, G. McHattie, M. Lee, C. McDonald, G. Norris, S. Thomas, A. Darnley & D. M. Carter 171A
Review of current practice in relation to commencement and administration of percutaneous endoscopic gastrostromy feeding.
U. Martin & M. Laidlaw 172A
Prospective introduction and evaluation of guidelines for percutaneous endoscopic gastrostomy insertion.
N. Assassa, H. Bradby, C. Cobb, S. Harrison, H. Hart & E. Hughes 172A
Nutritional management of patients with acute stroke: Compliance with Evidence-based guidelines and association with nutritional risk.
C. P. Murray, S. Passmore, M. Smits & S. M. McLaren 173A
Nutritional risk and its association with stroke related variables.
C. P. Murray, J. Sitzia, M. Smits & S. M. McLaren 173A
Prevalence of undernutrition and obesity among elderly Dublin inpatients using old and new reference data.
C. Corish, P. Flood & N. P. Kennedy 174A
Liver function tests in adults receiving home parenteral nutrition.
D. Darby & J. L. Shaffer 174A
Can nutritional knowledge and care be improved by a training scheme for nurses and health care assistants?
M. Creamer, A. Forbes, A. Culkin & L. Cooke 175A
Hospital nutritional supplement prescribing practices in Newcastle upon Tyne: implications for nutritional home-care.
L. Air, C. Docherty, L. Fletcher, H. Maughan, J. Oldroyd, D. Scott, J. Smith & A. Torrance 175A
Reducing the complications of feeding line insertion.
S. F. McGurk, A. McLelland, P. McKeown & R. F. McKee 176A
Mothers' attitudes to feeding-tube insertion.
E. McNamara, M. Breslin, P. Flood & N. P. Kennedy 176A
Use of percutaneous gastrostomy (PEG) feeding tubes in patients with cancer: a retrospective study.
C. Hawkins, K. Winstone & C. Probert 177A
The use of Chlorhexidine mouth spray in reducing the incidence of peristomal infection in patients with percutaneous endoscopic gastrostomy.
D. H. L. Ng, L. Timmis & T. E. Bowling 177A
Parents perceptions of caring for a child on home parenteral nutrition.
C. Savidge, M. Cullen, P. Carmichael, S. Long & S. Hill 178A
Clinical effectiveness of routine nutritional risk assessment in an acute hospital trust.
D. G. Duncan, K. Hood & J. Jenkins 178A
Chest radiology does not reliably demonstrate catheter tip position.
N. Reynolds, A. McCulloch, C. R. Pennington & R. J. MacFadyen 179A
The incidence of recorded weight, height and body mass index and identifiable weight change: a retrospective audit in a district general hospital.
J. Arnold, L. Wydrew, H. Rollins, E. Meads, C. Sale, A. Smith & N. Simmonds 179A

Applied nutrition in Intensive Care patients.
O. Winsö, S. Lehtipalo, A. Rydvall & B. Biber 180A
Review of peripheral parenteral nutrition usage at the John Radcliffe Hospital and production of guidelines for the future.
H. M. Dewar & H. A. Ritchie 180A
The influence of multivitamin source on vitamin A degradation in parenteral nutrition mixtures during administration.
H. J. Martin & M. C. Allwood 181A
The degradation of dehydroascorbic acid in parenteral nutrition mixtures.
E. Gibbons, M. C. Allwood, T. Neal & G. Hardy 181A
Analysis of discoloration of intravenous filter membranes during simulated clinical use.
M. Goggin, I. Costello, S. Huxtable & E. Maynard 182A
Percutaneous endoscopic gastrostomy cancellations: effective use of resources?
I. W. Fellows, J. McGovern & L. Hindle 182A
Ward hostess study at Basildon and Thurrock General Hospitals NHS Trust.
M. L. Waite, S. Aneiros, D. I. Hudson & A. F. Cartwright 183A
Quality in nutritional assessment: the role of the Nutrition Nurse in the implementation of a nutritional assessment tool.
J. F. Kennedy 183A
Audit of patients and/or carers' knowledge and satisfaction with the service provided by the Nutrition Support Team to patients both going and at home receiving artificial nutrition.
G. McHattie, C. McAtear, L. Davidson & K. Kiernan 184A
Should nurses use mid arm circumference measurements to aid identification of patients with nutritional problems?
E. Weekes 184A
An audit of current practices in patient selection and short-term clinical outcomes for percutaneous endoscopic gastrostomy placement at a District General Hospital.
B. L. Abrahams & J. G. Wilson 185A
Gastrostomy feeding in adults receiving peritoneal dialysis.
N. R. Ruddock 185A
Importance of system design in reducing the risk of exogenous bacterial contamination of enteral tube feeds.
J. McKinlay, A. Wildgoose & A. Anderton 186A
Growth monitoring in children with congenital heart disease.
E. G. Neal, M. J. G. Suarez, A. J. Nicoll & R. M. Tulloh 186A
Comparative nutritional study between elite rhythmic and artistic gymnasts: immunological assessment.
S. López-Varela, A. Montero, S. Samartin, B. de la Rosa, E. Diez, R. K. Chandra & A. Marcos 188A
Anthropometric and immunological assessment of elite gymnasts.
A. Montero, S. López-Varela, A. Alvarez, R. K. Chandra & A. Marcos 188A
Evaluation of cytokin production by peripheral blood mononuclear cells in underweight anorexia nervosa patients during refeeding.
E. Nova, S. Gómez-Martinez, M. J. Simon, S. Samartin, G. Morandé & A. Marcos 189A
The relationship between iron status and the immune system in patients with anorexia nervosa at admission and at discharge: a comparative study.
S. Gómez, E. Nova, S. Samartin, M. J. Simon, G. Morandé & A. Marcos 189A
Weight and nutritional status of diabetic children.
B. de la Rosa, A. Montero, J. Casas, M. J. Ceñal & A. Marcos 190A
Adhesion molecules in diabetes and the effects of fish oil supplementation.
D. A. Hughes, I. R. Davies, J. C. Brown, V. Morgan, T. Richardson & M. J. Sampson 190A
Dose-dependent inhibition of phagocytic activity by dietary eicosapentaenoic acid.
S. Kew & P. C. Calder 191A

High dose Hylon VII increases tumourigenesis and decreases lymphocyte proliferation in Min mice.
F. Armstrong, J. Kirby, C. A. Higgins, J. Coaker & J. C. Mathers 191A
Lipolysis and biohydrogenation of PUFA's from fish oil during *in vitro* incubations with rumen contents.
V. I. Fievez, C. J. van Nevel & D. I. Demeyer 193A
